LUXOR™

100% ACRYLIC UV SOLID SURFACE

At the heart of every solid surface bearing the Luxor™ trademark lies a philosophy. It is our dogma, the code within which we operate. At Luxor™ we believe every solid surface we create should not only stand the test of time but also retain its original colourful appeal. For it is in these colours that you'll find your joy, and inside these colours is where every surface finds its strength.

LUXOR™

100% ACRYLIC UV SOLID SURFACE

Imagination is never limited by shape, size or colour. It takes shape in the mind's eye and finds its way in the form of design. And that's the very premise on which Luxor™ Solid Surfaces are based on. Every Luxor™ Solid Surface is brimming with opportunities. It is composed of minerals, acrylic resins and proprietary colouring agents; we call it a magical composition of possibilities. One that makes it malleable, yet pleasing to the eye. One that can withstand any amount of wear and tear, without showing even a smidgen of abrasion. The dynamism in its composition helps it take the shape of your imagination. The colours are a visual treat. And its strength keeps you at peace. It's easy to live with, warm to touch and makes you fall in love with it before you know.

Watch your imagination
take shape.

Colours that are limited only by
imagination.

Commercial

Let your projects flaunt class.

Luxor's lively, consistent colours work wonders for commercial areas. Stylish, funky, warm, welcoming – Luxor™ enables you to create an ambience of your choice. Appearance aside, Luxor's unmatched functionality is truly awe-inspiring. It's ability to be carved, routed, thermoformed into mouldings and even to be back lighted, provides virtually limitless freedom to the designers. Extremely durable, wear resistant and easy to maintain, Luxor™ goes beyond countertops to give creative dimension to your projects.

Hospitality

Let the first impression be the lasting one.

Hotel reception, pub, restaurants are the most demanding areas where easy maintenance is just as important as an appearance. Highly durable, aesthetically appealing and easy to care for, Luxor™ passes the test with flying colours. Luxor™ exudes unusual warmth and character and is sure to create pleasing and welcoming atmosphere.

Healthcare

What makes Luxor ideal for healthcare industry?

Hygienic and germ-free environment is the prime concern in hospitals and consulting rooms. Being totally non-porous and seamless Luxor™ doesn't harbour pathogens and thus it inhibits bacterial growth in wall claddings, ceilings and counter surfaces, ensuring infection-free environment. It's ability to be thermoformed ensures laminar air circulation in the hygienically critical areas such as operation theatre. Luxor™ survives impacts and spillages and keeps its good looks intact for years. Moreover, it's beautiful, seamless finish and pleasing colours such as Mint Ice, Sky Blue and Vanilla, create soothing and cheerful atmosphere for patients.

Healthcare

Luxor MediScrub, Surgical Scrub Vanities.

Luxor Solid Surfaces are also used in special surgical scrub vanities - MediScrubs, developed for surgeons to help them maintain hygiene post surgery. Ergonomically designed MediScrub vanities make the sterilisation process convenient and consistent. The sloping bottom surface of MediScrub minimises splashing of water. MediScrub vanities come in both wall mounted and floor mounted designs and allow customisation of sizes and colours.

Living with Luxor™

- **Matt Finish** is the standard finish delivered by your certified fabricator/ installer. It is a low or no-sheen finish and is recommended in all high-use areas.

Scrub in a small circular motion with a wet sponge and an abrasive cleanser such as Soft Scrub®. Darker colors tend to require more attention than lighter colors.
--

- **Satin Finish** has a slightly higher sheen than matt and requires more attention depending on frequency of use and area of application.

Lightly scrub surface in a small circular motion with a wet sponge and an abrasive cleanser such as Soft Scrub® over stain or scratch.
--

Darker Color	Darker Colors tend to require more attention than lighter colors. Scrubbing too aggressively may actually reduce the gloss level.
--------------	---

- **Gloss Finish** is a higher and reflective sheen that requires additional care and maintenance. It is important to note that a gloss finish, especially on a dark color, will require more care than a Matt/Satin finish. Therefore, be sure not to apply the same method or process recommended for a Matt/Satin finish when caring for a Gloss finish. Repeat the procedure shown below - If stain persists, contact your certified fabricator/installer for assistance. **DO NOT USE ABRASIVE CLEANSERS AND PADS OF ANY TYPE ON A GLOSS FINISH: PLEASE CONTACT YOUR LUXOR™ RETAILER/DEALER FOR MORE INFORMATION.**

Spray a non-abrasive product such as Mr. Muscle over stain and wait for a couple of minutes. Then, scrub in a small circular motion circular motion with a wet sponge.
--

Darker Color	Darker colors tend to require more attention than lighter colors. scrubbing too aggressively may actually reduce the gloss level. Do not use abrasive cleansers, pads or steel wool...
--------------	--

After completing the above procedure, rinse with clear water and wipe dry a soft cloth or paper towels to prevent spotting. To enhance the visual color clarity and hide minor scuffs, apply Countertop Magic® cleanser (available at any hardware store or supermarket) and wipe away excess with a soft cloth.

4. Preventing Damage

Minor damage that may accidentally occur is most often repairable by a Luxor™ certified fabricator/installer or repair expert. However, be sure follow these guidelines to prevent damage to your Luxor™ surface.

- **HEAT:** Luxor™ solid surfaces have excellent heat resistant properties compared to other countertop materials. However, placing hot pans, as well as some heat-generating appliances such as electric grills or deep-fryers, can damage the surface. Always use a hot pad or a trivet with rubber feet to protect Luxor™. Avoid subjecting Luxor™ solid surfaces to extreme hot temperatures.
- **CHEMICAL:** Avoid exposing Luxor™ solid surfaces to strong chemicals such as paint removers, acetone, and oven cleaners. Surfaces exposed to these chemicals should be promptly flushed with water; contact may cause spots that may require extensive repairs. Remove nail polish with a non-acetone-based nail polish remover and flush with water.
- **SCRATCHES:** Never cut or chop directly on a Luxor™ solid surfaces, always use a cutting / chopping board.
- **FRACTURES :** Avoid standing on countertops or dropping heavy objects on the surface.

NOTE: Gloss reduction, scratching, and staining on solid surface incurred over time due to use is NOT a manufacturing defect but is considered normal wear and tear - The forgoing is NOT covered under the Luxor™ Limited Warranty. However, the countertop can be re-sanded and refinished periodically if you so choose-you will be charged the standard hourly service rate. If your Luxor™ product is accidentally nicked or deeply scratched, please contact your retailer/dealer or Luxor™ certified fabricator/installer for advice about the most effective method of repair - most repairs are relatively quick and simple when performed by an experienced professional (service charge may apply).

For more detailed information, please contact your Luxor™ dealer or visit us at www.durlax.com/luxor.

Use of certain names is intended only to show of a type off cleaning product. This does not constitute an endorsement or support for that product. Nor does the exclusion of any certain name product imply its insufficiency.

Use And Care Guidelines

Cleaning kitchen countertops and other Luxor™ surfaces

Luxor™ is a durable and repairable product that will last for many years with simple care. Follow these instructions to preserve your Luxor™ solid surface products.

1. Everyday Care

General cleaning of your Luxor™ solid surfaces can be done by wiping the surface with a damp cloth or sponge, then dry with soft cloth or paper towels to prevent spotting; especially in areas with hard water.

2. Basic Stains

Clean with an ammonia-based product such as household glass cleaner or commercially available non-abrasive spray-on cleaners for solid surface products. Wipe dry with a soft cloth or paper towels to prevent spotting.

3. Stubborn Stain and Minor Scratches

There are over 60 colors available in Luxor™ and each color can be supplied with a different type of finish by a Luxor™ certified fabricator / installer. Dark colors in countertop surfaces and particularly dark colors that have been finished to a gloss, like anything else, will potentially show signs of use, such as scratches and soap residue, more readily than light colored solid surface materials. Therefore, gloss finish generally requires additional maintenance and care to retain its original luster. Different cleaning techniques are required to remove stubborn stains and minor scratches depending on the type of finish and color as detailed in the following instructions (Note : please contact your certified fabricator/ installer if you are uncertain which type of finish is applied to your Luxor™ solid surfaces). DO NOT attempt to repair deep scratches, chips or burns, contact a certified Luxor™ fabricator / installer.
